

Message from Key School Bodies – Principal Didi Anandavitandra

Annual Report 2021

We launched into the new year with an exciting incursion with 'Starr's Planetarium', which contained a 4k projector that immersed students a 360degree, interactive presentation of content sourced from NASA and other international Astronomy content providers.

It was a joy to witness the reactions of the students. They were bubbling with enthusiasm and curiosity. They demonstrated, through their articulate questions and comments that their minds were fully engaged with the possibilities of space and the universe. Later in the term students engaged in the National Simultaneous Storytime and had a story read to them by an Astronaut in space.

Our school Swimming Carnival was a successful and enjoyable opportunity for our students to participate in competitive racing alongside their peers, engaging in water sports, games and celebrating the skills they have learnt through lessons. Our great coaches have nothing but praise for Vistara students.

Service to the community

Students and staff contributed a wonderful range of vegetables, herbs and legumes, to produce bountiful pots of soup for the people in need. This is a regular event for our school. The soups are then placed in containers, frozen and given to the 'Five Loaves Soup Kitchen' for distribution. The wider Lismore Community really appreciate the fact that students at our school are thinking of them and they always comment on how delicious the soup is.

World Teachers Day

Our school celebrated our Teachers on World Teachers Day. It was a wonderful surprise for our colleagues and students provided flowers, gifts and hosted a special morning Tea for their Teachers.

Community Art Project – Walk Draw Map

Vistara Primary School students have been invited to participate in a community art project called "Walk Draw Map". 'WALK DRAW MAP' is a collaborative drawing, printmaking and mapping project, engaging participants to creatively interact and connect with the natural and urban spaces surrounding them. The Community Arts Project ran from Feb 2021 – June 2021, culminating in a public exhibition at the 'Elevator Artist Run Initiative Gallery', Lismore.
